Earlier today, on the heels of an announcement that the U.S. economy added another 850,000 in June, an airplane flew along the shore of Lake Michigan near Milwaukee celebrating America coming back together this Fourth of July holiday weekend. The plane carried a banner that read: “America’s Back Together Thanks to Biden & Dems.”

Footage of the plane flying near the Milwaukee Art Museum can be downloaded [HERE](#).

Thanks to the leadership of President Biden and Democrats’ American Rescue Plan, the economy is booming, more than 328 million doses of the vaccine have been administered, and COVID-19 deaths have been reduced by more than 90% since January. Last year, Americans spent the holiday at home because of the pandemic, but now thanks to President Biden and Democrats, America is back.

The plane is part of the DNC’s ongoing efforts to remind Americans that America is coming back together ahead of the Fourth of July holiday thanks to the leadership of President Biden and Democrats. In addition to the planes, the DNC launched a [new TV ad](#) and an ice cream truck tour this week that started in Trenton, New Jersey and will end in Washington, DC on July 4.
