WISCONSIN – Today, **Real Recovery Now alongside BLOC and For Our Future** [released polling](#) in Wisconsin revealing big and bipartisan support for all the elements of President Biden's infrastructure and care plan. People in Wisconsin are hungry for action on building back better and expect Congress to deliver results.

In addition to all of the elements of Biden's plan being popular, people also support paying for it by having the rich and big corporations pay their fair share in taxes, and this includes a significant **45%** of Republicans.

"This data reflects exactly what our team is hearing on the ground – there is broad, bipartisan support for President Biden's plans to build back better. We're finding that the more specific we are about the individual elements of the President's plans to create jobs and raise wages the more eager people are to support them, especially when they hear that these plans are paid for by ensuring the very wealthy and big corporations pay their fair share in taxes." – **Peter Drummond, For Our Future Wisconsin State Director.**

"The poll shows how basic infrastructure and care are not only widely popular in our communities but are necessary to have thriving communities. One issue that hits the Milwaukee Black community hard, is dealing with lead in our drinking water. It's been noted that drinking water with amounts of lead in it, leads to behavioral and

development issues that can sometimes lead to law enforcement being called on our community members. Having access to clean drinking water is a fundamental right for us all.” – **Angela Lang, Executive Director, Black Leaders Organizing for Communities (BLOC).**
