Berlin, WI —Representative Alex Dallman had the honor of touring and visiting ThedaCare Medical Center in Berlin.

ThedaCare Medical Center-Berlin had some expansions added in the spring of 2021 and Representative Dallman was able to see the new emergency services such as a better location of the staff workstation, access to telehealth, larger trauma room, and a decontamination room for chemical accidents.

“It was great to see the new additions. This is exactly what Berlin and the surrounding communities in my district need for hospitality care. I was surprised at all of the services that this local, rural hospital offers,” said Representative Dallman. “I learned that this hospital is the closest one for approximately 60,000 people in the area.”
