Madison, WI—Today, Rep. Cody Horlacher (R-Mukwonago), circulated a bill (LRB-4685/1) that ensures that natural immunity is protected in the State of Wisconsin. With the increase in employer-mandated vaccinations we need to protect natural immunity as an answer to vaccine and testing requirements.

This bill simply allows individuals to provide proof of a positive COVID-19 test or proof of antibodies for COVID-19 in order to comply with any employer-required COVID-19 vaccines or testing.

Rep. Horlacher issued the following statement:

*“We need to protect families’ right to their own healthcare decisions. Wisconsin is facing a labor shortage and these additional requirements only worsen the situation.*

*I am proud to support all options for workers. Many of my constituents have reached out to me worried about being able to keep their jobs, to support their families and communities.*

*This is one way that we can ensure that individual freedom is protected.”*

The bill is currently circulating for co-sponsorship in the legislature.
