**WASHINGTON, D.C.**—Congressman Bryan Steil (WI-01) released a statement on President Joe Biden's first day in office.

“Despite promising to work for unity, in his first hours in office, President Biden has managed to destroy American jobs, support giving amnesty to 11 million illegal immigrants, and make plans to enact a radical anti-life agenda. On day one, Biden has set the tone for what is to come in his administration: legislating by executive orders, championing massive spending bills, and supporting far-left priorities that reverse years of economic growth and job creation. With millions of workers out of work and our crippling national debt increasing, we cannot afford President Biden's anti-worker, anti-economic growth agenda,” **said Steil.**

Earlier today, Steil joined members of the Wisconsin delegation to urge President Biden to support the completion of the Keystone XL Pipeline. [You can read the letter here.](#)
