OSHKOSH – On Tuesday, U.S. Sen. Ron Johnson (R-Wis.) released the following statement regarding President Biden’s announcement doubling down on his failed response to COVID-19.

“The President is doubling down on his same failed response to the pandemic. Other than coercion and freedom robbing mandates, what has this administration been doing? Why is Biden throwing money at testing and ventilators but not focusing on monoclonal antibodies or early treatment? Why not recognize natural immunity? Why do we have to rely on international data because our own health agencies have failed to collect data and have not been transparent with the information they have? Why are we firing first responders when we have a shortage of healthcare workers? Biden, Dr. Fauci and the COVID gods in federal health agencies have failed the American people miserably.”
