OSHKOSH — On Tuesday, U.S. Sen. Ron Johnson (R-Wis.) joined Fox News' "[Hannity](#)" to discuss the harmful results of Democrats policies.

The interview can be found [here](#), excerpts are below.

On Democrats' harmful policies:

"It's accurate to call the Biden administration incompetent, but that's way too kind. These are their policies. The results of their policies were obvious from the start. Now Americans are waking up to it."

"This is a disaster for the very people Democrats purport to represent. Seniors on fixed income and people at the lower end of our income spectrum. Inflation hurts them the most. You know, Mark Zuckerberg and Jeff Bezos, they're not going to be harmed by inflation. They're rolling in the dough based on these COVID shutdowns. It's the poor people. It's the elderly that are really hurt by inflation. Again, inflation caused by Democrat policies."

On putting America first:

“Well, I think we should continue with the successful Trump agenda. Reduce regulation, make sure that we maintain a competitive tax system, and by and large stay off the backs of the American public. Let them live their lives, let them build their businesses, let them produce products and services we all value and try and get the federal government either lies as much as possible. It’s successful. That’s what works. That’s what made America great. Our freedom, our ability to dream, aspire, build and create. Not big government.”
