Madison, Wis. — Today, on a virtual press call, Dr. Jeff Huebner, Dr. Joanna Bisgrove, and Laura French, who lost her mother to COVID-19, called out Ron Johnson for continually putting Wisconsinites' health at risk by spreading dangerous COVID-19 disinformation and attacks on the Affordable Care Act.

Dr. Jeff Huebner: "Senator Johnson — take your own advice: you're not a doctor, so stop giving medical advice that is putting lives in danger. Wisconsin deserves a senator who will listen to the truth and science, and put public health first — that's not Ron Johnson, and we should vote him out of office in November 2022."

Dr. Joanna Bisgrove: "Johnson has constantly voted against the Affordable Care Act, and even brought a lawsuit against it that was dismissed because he had no standing. And then he appealed the dismissal — he just won't stop."

Laura French: "Watching Ron Johnson continue to undermine the perils of COVID-19 is a disservice to all those who lost their lives and the struggle we still face getting this virus fully under control."
