Safety improvements will begin Monday (April 12) on US 18/151, between the County JG overpass in Mount Horeb and County BB near Ridgeway, in Dane and Iowa counties. The \$1.9 million project will install high-tension cable barriers in the highway median.

Single lane closures are anticipated in both directions. Motorists are urged to slow down and be vigilant for crews working in the area. The project is scheduled to be completed in late June.
