Work is scheduled to start on Monday, March 22 to resurface WIS 73 between Deerfield and Marshall in Dane County. The exact limits of the project extend from North Street in Deerfield to School Street in Marshall. Other construction activities include guardrail replacement, curb ramp upgrades, removal of a cattle pass culvert, and updated pavement markings.

WIS 73 will remain open to traffic with daily flagging operations. Motorists are advised to slow down, and be alert for crews and equipment. Weekly updates will be provided on the WIS 73 resurfacing project website at <https://projects.511wi.gov/wis73-deerfield/>.

The \$2.6 million project is scheduled for completion in late May 2021 (weather-permitting). The prime contractor is Rock Road Companies, Inc. based out of Janesville.
