AARP has been fighting to protect the rights of all Americans 50+ to vote freely, easily and safely for more than 35 years. We have long advocated for fair and straightforward election procedures that help increase the participation of voters aged 50 and older. To that end, we are encouraged by the court's decision directing the state elections commission to uphold the rights of voters and provide guidance to municipal clerks regarding access of these voters under the federal voting rights act. "We are pleased to see that the court is taking a common sense approach to make sure people are not disenfranchised and we hope and expect that the elections commission will provide reasonable guidance that protects voters' access to elections in Wisconsin."
