MADISON, Wis. – The Wisconsin Department of Justice (DOJ) today announced that this upcoming Saturday is National Drug Take Back Day. 140 events are planned across Wisconsin on Saturday, October 29, 2022, where Wisconsinites are encouraged to dispose of unwanted and unused medications.

“You can help with the fight against the opioid epidemic by safely disposing of your unused and unwanted medications,” said Attorney General Josh Kaul. “This fall, I encourage everyone to clean out their medicine cabinet and bring their unwanted medications to a Drug Take Back event or to a permanent drug drop box in their area.”

Drug Take Back Day provides a safe, convenient and responsible means of disposal, while also educating the community about the potential abuse and consequences of improper storage and disposal of these medications.

Unused or expired medicine should never be flushed or poured down the drain. Water reclamation facilities are not designed to remove all pharmaceuticals, and trace amounts are showing up in rivers and lakes.

To ensure the success of Drug Take Back Day, DOJ relies on assistance from the DEA, and the generous support of Fuchs Trucking, Covanta Energy, the Wisconsin State Patrol, the Wisconsin Department of Agriculture, Trade and Consumer Protection, Wisconsin Department of Health Services, Wisconsin Department of Military Affairs, Wisconsin Department of Natural Resources, the Indiana State Police, Waukesha County, Waukesha County Sheriff's Office, and all participating

local law enforcement agencies.

GUIDELINES:

All waste pharmaceuticals must be generated by a household – no businesses are allowed.

Bring: Prescription (controlled and non-controlled) and over-the-counter medications, ointments, patches, inhalers, non-aerosol sprays, creams, vials and pet medications. Vape pens or other e-cigarette devices (batteries removed).

Do Not Bring: Illegal drugs, needles/sharps, acids, aerosol cans, bio-hazardous materials (anything containing a bodily fluid or blood), personal care products (shampoo, soaps, lotions, sunscreens), household hazardous waste (paint, pesticides, oil, gas), mercury thermometers.

Participants may dispose of solid, non-liquid medication(s) by removing the label or blacking out personal information on the label of the plastic pill container or by putting the medication into a clear sealable plastic bag. Blister packages without the medications being removed are also acceptable.

Liquids will be accepted during this initiative. However, the liquids, creams and sprays must be in their original packaging. Liquids without the original packaging will not be accepted.

Illicit substances such as marijuana or methamphetamine are not a part of this initiative and should not be placed in collection containers.
