

DGA-aligned group knocks Michels as too radical on guns

Posted on Tuesday, Aug 16, 2022

A group aligned with the Democratic Governors Association has started a digital buy knocking GOP gov candidate Tim Michels as too radical on guns.

The DGA described the buy from Alliance for Common Sense as in the high five figures.

One version is 6 seconds, while the other is 15.

The longer spot shows media reports on school shootings. The screen then reads, "Tim Michels would let 18-year-olds buy AR-15s and let loaded guns onto school grounds."

As audio continues from the media reports, the screen shows the message, "Tim Michels: That's too radical."
