Headlines across the country are continuing highlight how President Biden's budget for Fiscal Year 2023 would impose a new Billionaire Minimum Income Tax on the wealthiest Americans, reduce the deficit by more than \$1 trillion over the next decade, advance safety and security at home and around the world, and make the investments needed to build a better America.

Here is what people in states across the country are reading this week about how Biden's budget would impact them:

President Biden's middle class-focused budget comes as Republicans have laid out an agenda of tax hikes and raised premiums. Over the weekend, NRSC Chair and Senator Rick Scott [struggled to defend](#) his plan to raise taxes on the poorest Americans and sunset Social Security and Medicare in five years. And Senator Ron Johnson is facing [heat](#) at home for saying that Republicans should repeal the Affordable Care Act if they take back power, which could raise premiums and kick millions off of their health insurance.
