Senate Republicans just blocked legislation to protect a woman's right to travel to another state to get access to critical reproductive care. This is just another example of the GOP's extremist agenda in action: Overturning *Roe v. Wade* was just the beginning — now they're trying to take away a woman's right to make her own health care decisions.

**Let's be clear: Republicans just opposed a law designed to protect individuals like the 10-year-old rape victim in Ohio — who was forced to travel to Indiana to receive an abortion when her home state implemented a draconian 6-week ban. **Republicans are launching a full-scale assault on women's rights. Americans know that their cruel, anti-choice agenda is simply too extreme.**
