Franklin, WI - Forward Latino, a non-partisan, non-profit advocacy and service organization with members and affiliates in 29 states applauds President Biden on the termination of the Migrant Protection Protocols (MPP) better known as “Remain In Mexico Policy” put in place by the prior administration and on today’s victory in the United States Supreme Court asserting his ability to do so.

Forward Latino National President Darryl Morin stated, “Today we thank President Biden once again for his order terminating the Migrant Protection Protocols and congratulate him on his victory today in the United States Supreme Court. The MPP was unprecedented in American history and forced those in active Asylum proceedings to remain in Mexico, subjecting them to violence, abuse and exploitation. We look forward to working with the President Biden and Congress in the days and weeks ahead to finally address the issue of our nation’s failed immigration policy so that tragedies, such as the one that recently occurred in San Antonio, Texas can be averted, and so that our nation will finally have an immigration policy that meets our nation’s security and economic needs, while maintaining our commitment to defending human rights.”
