WHITEWATER – February 7, 2022 – The Greater Whitewater Committee (GWC) will be hosting its annual meeting to celebrate its accomplishments from 2021 and discuss its goals for 2022. This year’s program will feature a presentation from Assistant Deputy Secretary Joel Nilsestuen and the Division of Transport Investment Management Administrator Joe Nestler from the Wisconsin Department of Transportation.

This event will take place on **Thursday, February 10th, 2022 at 6 p.m.** at 841 Brewhouse in Whitewater, WI and the whole community is cordially invited.

One of the GWC’s initiatives is to widen Highway 12 to four lanes, and this event will provide an excellent opportunity to hear more information about the process moving forward. The GWC is very excited to be hosting these speakers, and for the chance to interact with members of the community as it plans for another year of success.

The meeting is open to the public and acts as a formal networking opportunity for members of the Greater Whitewater Committee and local organizations. There will be a social hour beginning at 5:30 p.m. where guests have the opportunity to connect with members of the community prior to the presentation.

“Interacting with the Whitewater community at the annual GWC meeting is something I look forward to every year,” said GWC President Jeff Knight. “We are so

thrilled to hear more about the Highway 12 project and celebrate our recent accomplishments.”

While an RSVP is not required to attend, we encourage anyone planning to come to contact us at research@knightpublicaffairs.com.

For further details, please contact Jeffery Knight at 920.728.0662 or jpk@knightpublicaffairs.com.

About the GWC

The GWC is an action-oriented group committed to working with citizens, elected officials, and policy makers to identify, craft, and implement a pro-business agenda. The agenda advances the economic, education, and social policies required to energize and secure the Whitewater area's economic future, as well as protect Whitewater's quality of life.
