MADISON, Wis. -- Madison Children's Museum is partnering with AMI Expeditionary Healthcare to host another pop-up Covid vaccination clinic at MCM for ages 6 months & up.

The clinic will be held Tuesday, August 16, 9 am-1 pm.

Children ages 6 months old and up can receive their Covid vaccination or boosters and enjoy free playtime in the museum. The clinic also serves adults, so the whole family can get what they need. Registration is strongly encouraged as doses are limited. Walk-ins will be accommodated as capacity allows.

About the free family vaccination clinic

All vaccinations are free. Admission to the museum is free for anyone getting vaccinated or accompanying a family member getting vaccinated.

How to register:

- Click on the button below to go to the Wisconsin Department of Health Services registration page
- Enter the captcha (authentication) code on the bottom of the screen to proceed
- Enter your information and answer the screening questions
- NO Insurance information is needed
- Agree to the attestations
- Change the date range to include August 16 and search for zip code 53703
- Select one of the time slots - and then you're done!

Important note for anyone signing up to get their SECOND dose who got their FIRST dose at the museum or any other WCVR clinic: Instead of using the process above, please use the link in the email you received after getting your first dose. If you try to start from scratch, you'll likely get an error message.
