Madison Children's Museum is partnering with AMI Expeditionary Healthcare to host two pop-up Covid vaccination clinics at MCM for ages 6 months & up.

The first runs this morning (Tuesday, 7/12) through 12:30 pm.

The next clinic is scheduled for Thursday, July 28, 3-7 pm.

Now that vaccinations are available for younger children, we're pleased to offer these free family vaccination clinics outdoors in the museum's Wonderground. Children ages 6 months old and up can receive their covid vaccination or boosters and enjoy free playtime in the Wonderground. The clinics also serve adults, so the whole family can get what they need. [Registration](#) is strongly encouraged as doses are limited. Walk-ins will be accommodated as capacity allows.

Details on vaccines offered:

- Pfizer: 6 months – 4 years (3-dose series)
- Moderna: 6 months – 5 years (2-dose series)
- Pfizer: 5 years & up (2-dose series & boosters)
- Moderna: 18 years & up (2-dose series & boosters)

- J&J: 18 years and up (single-dose & booster)

About the free family vaccination clinics

Families can get covid vaccinations or boosters administered to children ages 6 months & up. Weather permitting, clinics take place in the Down Under, the covered portion of the Wonderground. Rain location is indoors, second floor. To take the sting out of the vaccination process, kids can enjoy free playtime at the museum.

All vaccinations are free. Admission to the museum is free for anyone getting vaccinated or accompanying a family member getting vaccinated.

How to register:

- Click on the button below to go to the Wisconsin Department of Health Services registration page
- Enter the captcha (authentication) code on the bottom of the screen to proceed
- Enter your information and answer the screening questions
- NO Insurance information is needed
- Agree to the attestations
- Change the date range to include July 12 or July 28 and search for zipcode 53703
- Select one of the time slots – and then you're done!

Important note for anyone signing up to get their SECOND dose who got their FIRST dose at the museum or any other WCVR clinic: Instead of using the process above, please use the link in the email you received after receiving your first dose. If you try to start from scratch, you'll likely get an error message.

[Register for Vaccination](#)

If you have any difficulty with the sign-up process, please call the Wisconsin Department of Health Services at (844) 684-1064.

Madison Children's Museum is pleased to support the health and welfare of all

children and families in our community.

Free parking sponsored by ULI

Our friends at [Urban Land Interests](#) have generously offered a limited number of vouchers for FREE parking at their [ramp on Pinckney Street](#), right across from the museum. Park in the ramp and get your voucher at the clinic during the vaccination process. Supplies are limited and will be provided first-come, first-served.

Many thanks to ULI for their generosity!
