

Milwaukee Rotary Club

Posted on Sunday, Jan 9, 2022

Milwaukee County War Memorial Center,
750 N. Lincoln Memorial Drive,
Milwaukee.

Guest speaker is Matthew Wolak, additive advisor for 3D Printing BDM at GSC Engineering.

3D printing, as it stands today, is a global powerhouse. The long presence in the marketplace as strictly a prototyping tool is now a thing of the past. Wolak will be discussing where the major changes in 3D printing have occurred, and the major impact it has made on manufacturing.

Rotary meetings are open to members, invited guests and media.
