(MADISON,WI) – Rape Crisis Center stands in solidarity with survivors. Survivors who deserve to make choices about their health care. Survivors who know that reproductive care is crucial health care. Survivors who know that the ruling from the Supreme Court does not only affect them but all persons with uteruses.

This ruling does not end abortion; it ends safe access to reproductive care. This ruling disproportionately impacts Black and Brown folx. This ruling upholds continued institutional and structural racism embedded in our systems. This ruling changes the lives of millions of persons with uteruses.

Our helpline is available to survivors and loved ones who are affected by this decision. Our advocates will be available to offer resources. Our advocates can listen, support, and help you navigate through this time.
