MADISON - Representative James Edming (R-Glen Flora) released the following statement in response to the U.S. Supreme Court ruling in the case Dobbs v. Jackson Women's Health Organization.

"Today the United States Supreme Court rightly returned the authority to regulate abortions to the States through their elected representatives. Nearly 50 years ago, the right to an abortion was created by the Court even though it could be found nowhere in the text of the United States Constitution. Today's ruling corrects that wrong and allows each state to make its own decision. This is a victory for life and I am proud to stand on the side of the unborn."
