Celebration is in order! The Wisconsin's Supreme Court ruled today that ballot drop boxes are illegal under Wisconsin law! Wisconsin law is clear, drop boxes were never authorized nor intended to be used; in essence, the courts upheld Wisconsin's long-established election laws that, under the guise of the COVID pandemic, had been usurped by the Wisconsin Election Commission (WEC), as directed by my opponent, Speaker Robin Vos. In Wisconsin, only the legislative body has the authority to create election law; WEC may only enforce existing law. In the summer of 2020, Speaker Vos and Senator Fitzgerald single-handedly approved and encouraged the use of the illegal drop boxes, thereby bypassing due-process requirements from the full legislative body. Speaker Vos, I ask you to reflect upon the oath of office you swore to uphold. All state officials have a solemn responsibility to ensure that results obtained through illegality and fraud are never certified. The plenary power bestowed on the legislature by the U.S. Constitution carries with it this inherent responsibility. Regardless of your error in taking it upon yourself to authorize an illegal election practice, you must now make it right for the citizens of Wisconsin. You must call for an extraordinary session to honor the Assembly Joint Resolution of last session, and withdraw Wisconsin's 10

electors, wrongly certified, for Joe Biden in the 2020 election. Wisconsinites don't buy your assertion that withdrawing illegally-certified electors "unilaterally overturns the election results" or that it hands the election over to Donald Trump, or that such action is beyond your power. We all know that this oath-bound necessary step will instead trigger further constitutional processes on a national level that have ample historical precedent, and were foreseen by our nation's founders.
