OSHKOSH – U.S. Senator Ron Johnson (R-WI) and the National Republican Senatorial Committee (NRSC) jointly released a new ad today about the cost of inflation on Wisconsin families.

“What planet is he living on? Record gas prices, 40-year high inflation, costing Wisconsin families over \$8,000 per year. Sorry Joe, that’s the wrong direction,” the ad states about President Biden. “Here on planet Earth, Senator Johnson voted against Biden’s massive deficit spending that sparked inflation, and he passed tax cuts to help Wisconsin families survive economic turmoil caused by Democrats.”

“Joe Biden and the Democrats are moving our country in the wrong direction with their unpopular, radical agenda. Inflation is through the roof and prices are soaring, from gas to groceries, which is hurting hardworking Wisconsinites and their families. Wisconsinites need Ron Johnson to continue to fight for them in Washington, not a Biden supporter who would rather fight for the liberal special interest groups that are destroying the American economy.” – NRSC Chairman Rick Scott
