Compounding the calls from NBC News and RealClearPolitics last night. CNN and Decision Desk HQ have projected Derrick Van Orden the winner of Wisconsin's 3rd Congressional District. There are a small percentage of precincts outstanding that do not present enough votes for Brad Pfaff to overcome Van Orden's lead.

**Derrick Van Orden released the following statement regarding his victory:**

*"With a dwindling number of precincts left to report in the district, all of which have historically voted Republican, and with several major outlets calling our victory, it is time to get on with the people's work.*

*Brad Pfaff is doing the people of the 3rd district a great disservice by his election denialism."*
