This morning, President Biden signed an Executive Order with disastrous impacts for women and preborn children across the nation.

Gracie Skogman, Wisconsin Right to Life's Legislative/PAC Director responded, "Women in Wisconsin and nationwide deserve better than the empty promises of abortion providers. Women deserve comprehensive support for themselves and their preborn children. The message of the pro-life movement is one of empowerment, respect, and care for both women and preborn children."

Skogman continued, "Medication abortions, often taken at home and without critical medical supervision, are incredibly damaging and potentially dangerous to both the preborn child and mother. We call on President Biden to ensure that women facing challenging or unexpected pregnancies are provided with the life affirming support they need, and support the efforts of Pregnancy Resource Centers instead of abortion providers."
