MADISON, Wis. – Yesterday, [local](#) and [national](#) labor leaders celebrated President Biden's work to build an economy that finally works for working families at Laborfest. Thanks to steadfast leadership from President Biden, Governor Evers, and Democrats in Congress, Wisconsinites are seeing record job growth, higher wages, and saving money on everything from prescription drugs to home energy bills.

People across the state are reading about how President Biden is the most pro-union, pro-worker president and how Democrats' Inflation Reduction Act is a win for Wisconsin workers:

Voters across the state won't forget that time and again, instead of supporting job

creation, Wisconsin Republicans have put special interests and their wealthy donors over the families they're supposed to represent. Senator Ron Johnson and Republican Representatives Steil, Fitzgerald, Grothman, Tiffany, and Gallagher all willfully failed working families when they voted against legislation that will cut costs and create good-paying jobs – and this November, Wisconsin voters will hold them accountable at the ballot box.
