The I-39/90 northbound ramp to US 12/18 westbound (Exit 142A) in Madison will be closed from 8 p.m. to 5 a.m. Monday and Tuesday nights (May 23-24). In addition, lane closures will occur on I-39/90 southbound between the County AB/Buckeye Road bridge and Beltline interchange from 8 p.m. to 5 a.m. Wednesday and Thursday nights (May 25-26).

Crews will complete polymer overlays on the interstate structures as carryover work from the I-39/90 project. A polymer overlay is a type of treatment that enhances safety and durability of a bridge deck by waterproofing and increasing traction on the driving surface. The treatment also helps to resist damages incidental to winter maintenance, which optimizes pavement life.

Drivers should slow down and be alert for crews and equipment near the travel lanes. The work operations and ramp closure are weather dependent and subject to change.
