This morning, the Bureau of Labor Statistics [released](#) June's Consumer Price Index (CPI), showing that Joe Biden's inflation dumpster fire has gotten even worse. Prices have risen by [9.1%](#) over the past year and by 1.3% over the past month – the worst inflation numbers [in four decades](#).

Skyrocketing inflation is a result of Biden and the Democrats' disastrous economic policies, and they have no substantive plan to combat the problem. Biden and the Democrats continue to [shift blame](#) to the pandemic, Putin, or the oil industry while failing to recognize the [impact](#) of their bloated spending. If the Democrat Senate candidates in Wisconsin got their way, our nation would continue on this disastrous trajectory into economic turmoil.

“Hard-working Wisconsinites should not be paying the price for Biden and the Democrats' reckless spending. Business owners and families deserve common-sense solutions from their leaders to get our nation back on track.” – Republican Party of Wisconsin Rapid Response Director Mike Marinella
