MADISON, Wis. — Today, NARAL Pro-Choice America announced their support for Tammy Baldwin's U.S. Senate reelection campaign.

"Throughout her career, Senator Baldwin has always had the backs of the 8 in 10 Americans who support the right to abortion," **said NARAL Pro-Choice America President Mini Timmaraju.** "Her tireless leadership on important legislation to expand abortion rights and access demonstrates her deep commitment to reproductive freedom for all. In this year's Supreme Court election, Wisconsinites proved that they will show up to protect abortion. Come 2024, they will do so again by sending Tammy Baldwin back to the Senate."

"For decades, NARAL has been a champion in the fight for reproductive freedoms, and I'm so proud to have them stand by my side as we work to restore the right to choose here in Wisconsin and across the country," **said Tammy Baldwin.** "Together, we'll work until no politician and no judge can stand between you and making your own health care decisions."

Tammy Baldwin has served Wisconsin in the Senate since 2013. She has worked with Republicans and Democrats to take on the biggest fights and win, passing legislation to promote Made in America manufacturing, lower the price of prescription drugs like insulin, and expand health care for veterans. She is the author of the *Women's Health Protection Act* which guarantees equal access to abortion everywhere in the United States.
