MADISON, Wis. – The Wisconsin Department of Natural Resources (DNR) today announced that the village of Montfort and the city of Mayville are applicants for funding through the Safe Drinking Water Loan Program to improve their public drinking water systems.

Monfort plans to replace water mains. Mayville will replace the water mains on Alley Street and reroute water mains on CTH V.

Activities related to these projects are minor actions under Chapter NR 150, Wis. Admin. Code, for which no environmental analysis is required; however, following the Safe Drinking Water Loan Program federal requirement 40 C.F.R. §35.3580, an environmental review must be conducted before funding these projects.

The Safe Drinking Water Loan Program has determined that the projects will not result in significant adverse environmental effects, and no further environmental review or analysis is needed before proceeding with funding the projects.

The public is encouraged to submit comments regarding this decision and the potential environmental impacts of these projects. Submit comments by Dec. 19 to:

Department of Natural Resources

C/O Michelle Brietzman, Community Financial Assistance, CF/2
101 S Webster St.
P.O. Box 7921
Madison, WI 53707
DNRCFELEnvironmentalReview@wisconsin.gov

Based on the comments received, the Safe Drinking Water Loan Program may prepare an environmental analysis before proceeding with the funding process. The analysis would summarize the DNR's consideration of the project's impacts and reasonable alternatives.
