Ubet, WI—“If the ruling class can’t start bringing the country together, to unite and solve the real problems, then the United States will become the prey to the predators of the world,” said the Libertarian Party of Wisconsin (LPWI) Press Office in a recent statement. “To those who always keep dividing and weakening us, and destroying us, the people everywhere need to say ENOUGH of this nonsense. Citizens must consider alternative leadership.”

The statement continued: “The ruling class, using the Democrats and Republicans in office, manipulate this turmoil they’ve created to stay in power. They use otherwise solvable problems to keep people afraid, angry, and resentful by NOT solving any of them. The division and hate created leaves this nation and our state weaker and ever more vulnerable.”

By contrast, the Libertarian Party of Wisconsin, said the Press Office, seeks to bring fiscal and ethical balance back in to its proper role in national and state policy. With a dangerous world entering new Great Power conflicts, and a looming financial disaster with the national debt and a banking crisis, Libertarians see their principles—such as non-aggressive foreign policies and sound, gold-backed money—as two pillars of needed reform. With the ideal goal of a world living in peace and prosperity, the LPWI has a specific platform dedicated to achieving these ends in Wisconsin.

“Obviously, we want Liberty and Freedom everywhere for everyone. But first, we need to start addressing it in our own neighborhoods. It grows from there, but we need people to join in and help us do it,” the Libertarian statement concluded.
