The Western Caucus visited Northern Wisconsin on Friday 07-21. Part of the tour was visiting the Cenovus Energy Marine Fueling Dock.

**Quote from Tiffany:** *The Western Caucus visit to Cenovus and the Twin Ports was to highlight the vast natural resources available in our region to power the American economy for the next century. I'd like to thank Cenovus for the economic impact they have as the only refinery in Wisconsin, helping to provide reliable and affordable energy to the Midwest.*

**Quote from Sapik:** *Congress members from all over the country made it a point to visit Cenovus Energy. The Twin Ports is host to a lot of great things, but I think it's really important to remind people that one of the most important resources our country has to offer is right in our backyard. I look forward to working with Cenovus in the future with their many positive attributes to our community and beyond.*
