MADISON, WIS.—Today, Senator Rachael Cabral-Guevara (R-Appleton) released the following statement in response to the Governor signing Wisconsin's 2023-2025 biennial budget.

"I am happy to see the governor sign this historic budget bill into law. Months of negotiations have led up to this bipartisan moment: tax cuts, investments in critical infrastructure, and historic funding for our schools is now law."

"This budget addresses the need for chiropractic reimbursement parity, investments into our surgical collaboration, child care, local mass transit, upgrades to our state's campaign finance system, improved district attorneys wages, and so much more."

"On top of these critical investments, we were also able to secure funding for the Appleton International Airport to help with their terminal expansion project. It will continue to fuel growth for our state's third largest airport, right in our back yard. I want to thank our local partners, elected officials, and Director Weber for highlighting the benefit this investment will bring to our area and the region as a whole."
