Madison, WI — Wisconsin State Senator Eric Wimberger (R-Green Bay) issued the following statement regarding the Governor's State of the State Address:

"I am glad that after four years in office the Governor is finally able to celebrate the benefits that responsible budgets bring. As a new member of the budget committee, I am looking forward to helping turn another tax and spend wish list into a budget that delivers for taxpayers and all of Wisconsin"

"I welcome the Governor's sentiments on PFAS, but his words ring hollow as his administration continues to authorize spreading PFAS-laden biosolids at more than 100,000 parts per trillion on thousands of acres of farmland across Wisconsin. Plans to spend millions on cleaning up wells he is knowingly contaminating isn't a plan and doesn't solve our problems."
