WASHINGTON, D.C.- Rep. Mike Gallagher (R-WI), a member of the House Permanent Select Committee on Intelligence, released the following statement after the Director of National Intelligence (DNI) released a congressionally-mandated [unclassified report](#) on Unidentified Aerial Phenomena (UAPs).

“The DNI’s most recent UAP report reinforces what we already know - that we must figure out what our military aviators are observing in our airspace. The whistleblower protections recently passed into law are an essential step forward to solving this decades-long mystery and will ensure that those entrusted with defending America from potential threats have all the required information, historical context, and scientific resources to do so.”
