WASHINGTON, D.C. - Rep. Mike Gallagher (R-WI) today released the following statement after voting for H.R. 1, which would lower lower energy costs for Americans and restore American energy dominance.

“On day one, President Biden launched a war on American energy that has benefitted our adversaries at the expense of hardworking Americans. He cancelled the Keystone Pipeline and the thousands of good-paying Wisconsin jobs that would have come with it, increased taxes on American energy and American energy producers, and slowed energy projects on federal lands. H.R. 1 reverses course and will help lower the cost of energy for Wisconsinites by unleashing American energy and putting an end to the President’s radical Green New Deal policies.”
