**MADISON, Wis.** — One year ago today, the Tammy Baldwin-backed *CHIPS and Science Act* was signed into law, strengthening America's competitive advantage over China and making monumental investments in American and Wisconsin manufacturing and jobs.

With Eric Hovde, Scott Mayer, and David Clarke ready to enter the race for U.S. Senate, Wisconsinites deserve to know if they would support Senator Baldwin's legislation to support the made in Wisconsin economy, or if they would have sided with the majority of Senate Republicans and allowed China to have an advantage in manufacturing jobs.
