MADISON, Wis. — Ahead of President Biden's visit to Milwaukee today, **Democratic Party of Wisconsin Chair Ben Wikler** released the following statement:

“The holiday season in Wisconsin is brighter this year because of President Biden's leadership—and his Investing in America agenda. President Biden flipped the script after four years of Donald Trump's failed trickle-down economic policies, which abandoned the middle class and gave tax cuts to the wealthy and supersized corporations. Instead, President Biden is investing in the American people and an economy that works for everyone, not just the wealthy few. Thanks to the President's leadership, small businesses are booming and costs are coming down for hardworking families across Wisconsin. As we head into the new year when Wisconsinites will reelect President Biden and Vice President Harris to a second term, we at the Democratic Party of Wisconsin are thrilled to welcome President Biden back to the Badger State.”
