Today, JD Vance travelled to Wisconsin's 3rd Congressional District to try to spin Donald Trump's economic policies that are costing Wisconsin families over [\\$2,000](#) a year and destroying thousands of jobs across the state. Vance's trip comes on the heels of Trump's disastrous State of the Union address, in which he spent almost two hours lying about the state of the economy over and over again, including [falsely](#) claiming that the "economy is roaring like never before."

Just as Wisconsinites did not buy Trump's cheap spin during his State of the Union address, they did not buy Vance's spin today.

*In response, **DNC Spokesperson Albert Fujii released the following statement:***

"Today, JD Vance tried to gaslight Wisconsinites about Trump's toxic economic agenda that is jacking up their costs and costing them their jobs and health care. But Wisconsinites were not fooled. Just like they did not buy Trump's lies during this week's State of the Union, hardworking Wisconsinites did not buy Vance's attempt to gaslight them today. While Vance spends his time cozying up to billionaires like Elon Musk, who think they can buy Wisconsin elections, Democrats won't stop fighting to lower Wisconsinites' costs and fighting back against the rampant corruption of this administration."
