## BLS Data: Wisconsin's April Unemployment Rate Drops to 3.2%, Lowest Since February 2000

MADISON – The Department of Workforce Development (DWD) today released the U.S. Bureau of Labor Statistics (BLS) revisions for March and preliminary estimates for April covering employment and job statistics for the state of Wisconsin. In brief, the seasonally adjusted estimates show:

- Place of residence data: A preliminary seasonally adjusted unemployment rate of 3.2 percent in April 2017, down a significant 0.2 percent from March and at its lowest rate since February 2000. The rate remains lower than the national unemployment rate, which was 4.4 percent in April 2017. Wisconsin's labor force participation rate increased 0.2 percentage points to 68.6 percent and continues to outpace the U.S. rate which decreased to 62.9 percent in April. Both total labor force and employment in Wisconsin remained at all-time high in April, while the number of unemployed individuals was its lowest point since April 2000.
- Place of work data: Based on preliminary data, the state added a significant 37,600 total non-farm jobs and a significant 29,300 private-sector jobs from April 2016 to April 2017. Wisconsin also added 7,500 private sector jobs and a significant 14,800 total non-farm jobs from March 2017 to April 2017. Other significant month-over-month gains include 5,100 jobs in Manufacturing.

DWD Secretary Ray Allen issued the following statement: "Wisconsin's unemployment rate declined to a new 17-year low of 3.2 percent as the labor force and number of employed Wisconsinites have reached new all-time highs. The bottom line is Wisconsin's economy is growing and adding jobs, and our biggest challenge now is finding enough skilled talent to fill openings employers have available. Under Governor Walker's leadership, we will continue our aggressive talent development agenda to meet the needs of the labor market."

The BLS uses three data sets to measure employment and unemployment:

- **Current Employment Statistics (CES)**: compiled from a monthly survey sent to about 5,500 employers (3.5 percent of Wisconsin employers). CES data has been shown to be volatile and subject to revision.
- **Local Area Unemployment Statistics (LAUS)**: compiled from a monthly survey of 985 households and unemployment insurance claims. Measures the labor force, employment, unemployment, and the unemployment rate.
- **Quarterly Census of Employment and Wages (QCEW)**: compiled quarterly based on Unemployment Insurance records from some 96% of Wisconsin business establishments. Considered by most economists to be the most accurate measure of jobs, the QCEW includes data from almost all employers in Wisconsin.

Other indicators of the state of Wisconsin's economy include:

- Initial UI claims ended 2016 at their lowest level in their last 30 years. Year 2017 initial UI claims are running at the lowest in at least the past 30 years.
- Continuing unemployment claims ended 2016 at their lowest level since 1973. Continuing unemployment claims in Wisconsin are running at the lowest in at least the past 30 years.

\*Differences in total may occur as a result of rounding. (1) Includes Labor Market Disputes (P) = Prelim; (R) = Revised Blue changes are outside margin of error.  
Source: Local Area Unemployment Statistics and Current Employment Statistics programs, Bureau of Workforce Information and Technical Support.

**Cautionary note to users:** Revised methodological procedures mandated by the U.S. Bureau of Labor Statistics (BLS) force individual state estimates of employment into closer alignment with the national estimate. This change results in larger month-to-month employment change for the states and the information reported by DWD.

### 3. HISTORY OF REVISIONS OF ESTIMATES FROM PLACE OF WORK SURVEY

Month-Over-Month Changes	TNF			Private		
	Prelim	Revised	Change	Prelim	Revised	Change
January 2017	+200	+5,400	+5,200	+5,800	+10,400	+4,600
February 2017	+11,100	+11,100	+0	+7,600	+8,300	+700
March 2017	(2,700)	(3,700)	(1,000)	+500	+800	+300
April 2017						
May 2017						
June 2017						
July 2017						
August 2017						
September 2017						
October 2017						
November 2017						
December 2017						

Note: Prelim = original month-over-month change. Revised = updated month-over-month change. The "Change" column represents the difference between the prelim month-over-month change and the revised month-over-month change.
