

Dear Wisconsin MBA students:

Graduate business education at the Wisconsin School of Business has long emphasized specialization and depth of knowledge. This has differentiated us, it is valued by employers, and it was likely influential in your decision to come to Wisconsin. WSB is dedicated to the highest quality business education, and we continually evaluate and renew our offerings to respond to student and employer demands.

- There is currently an integrated proposal before the faculty as part of our review. Part of the proposal includes discussion to discontinue our full-time MBA. Regardless of the outcome of the discussions, WSB remains committed to all of you currently enrolled within the full-time MBA program.

- We understand you will have questions, and Dean Anne P. Massey invites you to meet with her for a conversation about the proposal and our commitment to your education. We encourage you to attend the town-hall meeting scheduled for Monday, October 23 from 12:15-1:00PM in the Plenary Room to speak with the Dean. Pizza will be served.

- As the process progresses over the next few weeks starting with the Masters Curriculum Committee, which has student representation, we will keep you informed of decisions made.

We remain committed to offering a forward-thinking curriculum that meets current market demands, so you and future students are best prepared to transform the world of business.
