HAND DELIVERED

Dear Gov. Walker,

We are writing today to request your assistance in protecting Wisconsin farmers, manufacturers and working families.

As you know, President Trump's reckless decision to engage in a trade war with key allied nations is threatening the economic security of our state. Unfair tariffs on Wisconsin-made products including cheese, cranberries, pork, ginseng and potatoes will have a devastating impact on local communities across our state.

Since you took office in 2011, Wisconsin has trailed the nation in job creation every single year. Wisconsin's working families and small businesses cannot afford another major economic setback caused by irrational, dangerous, and poorly conceived policies.

Unless immediate action is taken, the economic chaos created by President Trump's trade war will increase consumer costs, force local farms to close, and cost American businesses an estimated 400,000 jobs.

As someone who has embraced President Trump's agenda and has connections within his administration, we urge you to contact him on behalf of Wisconsin's families, farmers and small businesses and demand he end this trade war. Now more than ever, we need a stable, long-term plan to level the playing field and support Wisconsin families and businesses.

Thank you for your consideration of this request. Please do not hesitate to contact us if we can be of assistance.

Sincerely,
