Public School Teachers Endorse Vruwink

MADISON – The state’s largest teacher’s organization has endorsed State Rep. Don Vruwink (D-Milton) in the 2018 election for Wisconsin State Assembly.

The Wisconsin Education Association Council recommended Vruwink in a message to its members.

“I’m proud to receive the endorsement of my fellow educators,” Vruwink said. “I taught high school social studies for 42 years, so I understand the challenges facing our public schools. As a member of the Assembly Education Committee, I speak up for strengthening schools so that our children have the best education possible, given fiscal constraints.

“I am currently a member of the Milton School Board and a delegate to the Cooperative Educational Service Agency #2. I head the school board’s Technology Committee and recently went to Washington, D.C. on my own dime to ask Congress to increase funds for technology in schools statewide.

“During my second term in office, I plan to continue the fight for adequately funding our public schools and paying teachers like the professionals they are.”

Vruwink represents Whitewater, Milton, Edgerton, Footville, part of the Village of Oregon, and surrounding rural townships.
