STATEMENT ON MIDDLE CLASS TAX CUT

“A surplus means the state collected more money from taxpayers than it needs. I believe it is important to return the surplus to middle-class taxpayers. This is real money going back to middle class families through real tax relief. No gimmicks. Every reasonable person should be able to support that.

“Unlike Governor Evers’s proposal, this isn’t a redistribution of wealth, or robbing Peter to pay Paul. Governor Evers has over \$2.4 billion for his budget, more revenue than any Governor has had in a generation. There is no need to raise taxes on anyone to meet the state’s needs, and definitely no need to raise taxes to return a surplus to taxpayers.”
