## **REP. VOS CONTINUES TO PUT POLITICS FIRST**

MADISON – At a WisPolitics luncheon earlier today, Representative Robin Vos answered questions regarding Assembly Republican plans for the 2019-20 legislative session and the state budget process. Assembly Democratic Leader Gordon Hintz (D-Oshkosh) responded to these comments with the following statement:

**“Almost four months ago, voters in Wisconsin delivered a clear message on their priorities to lawmakers in Madison. Instead, Representative Vos and legislative Republicans seem to want to use every microphone they can find to name call, complain, and find reasons to oppose Governor Evers’ efforts to govern in a positive way. While it is becoming increasingly apparent that Republicans have no genuine desire for bipartisan solutions, Assembly Democrats will continue working with Governor Evers to advance the issues important to the people of Wisconsin, such as adequately funding our schools, fixing our roads, and creating pathways to affordable, accessible health care.”**
