**Statement on Building Commission Action and Governor's Capital Budget by Steve Breitlow, Business Manager, Plumbers Local 75**

Plumbers Local Union 75 supports Governor Tony Evers' capital budget and encourages the State Building Commission's bipartisan support.

From vital improvements for our Veterans' facilities and our university campuses, to our state parks, the Governor's Capital Budget reinforces the priorities of all Wisconsinites.

We thank the Governor for his bold vision for Wisconsin and ask the State Building Commission to follow suit by supporting these projects and the family supporting jobs they create.
