Forward Janesville Releases 2019-20 State Legislative Agenda

Business Advocacy Group Endorses Transportation Funding Solutions while Fighting Changes to Manufacturing Tax Credits

[Janesville] – Forward Janesville, a private economic development organization and chamber of commerce representing over 500 businesses across south central Wisconsin, today released its 2019-20 state legislative agenda.

This list of priorities will be the focal point of the organization's biennial Rock County Day in Madison, when business and community leaders from across the county visit the state capitol to talk about issues facing Wisconsin. Rock County Day in Madison will take place on Wednesday, May 15.

“Forward Janesville and its Government Relations Council is proud to announce our legislative priorities for the upcoming Rock County Day in Madison,” said Government Relations Council Chair Dave Holterman, the Vice President of First Community Bank of Milton. “Utilizing feedback from our membership and community stakeholders, we feel they represent common sense proposals that will help move Janesville and Rock County into the future. We are eager to discuss these ideas with our elected leaders at the capital this coming May 15th - and beyond.”
