Senate President Roger Roth's Statement on Evers' Vetoes

MADISON – State Senator Roger Roth (R-Appleton) issued the following statement regarding Governor Evers' vetoes.

“Governor Evers says he is a governor of the people but apparently that doesn't apply to babies that survive abortion attempts, babies that are aborted because of their gender, race, or disability, or women who may be having second thoughts about taking the two-step abortion pill regime.

“This is a governor who fails to connect the dots and bends to the extreme liberal special interest groups. He is not a pro-women or pro-babies governor.

“Yesterday, two abortion survivors stood outside the East Wing to share their stories. Governor Evers refuses to acknowledge these brave women and their fight for life.

“Shame on him for ignoring the vast majority of Wisconsinites who support these common-sense measures. The will of the people is being blatantly ignored.”
