## **REP. HINTZ STATEMENT IN RESPONSE TO FOXCONN AUDIT**

**MADISON** – Today, the Legislative Audit Bureau released a memo completing its review of WEDC’s EITMZ program covering their contact with Foxconn. Assembly Democratic Leader Gordon Hintz (D-Oshkosh) released the following statement after the release of the report:

**“Today’s audit highlights the importance of ensuring that jobs created with taxpayer dollars go to hard working Wisconsinites.**

**With Foxconn constantly shifting what they are building and what they will be producing in Wisconsin, there continues to be more questions than answers about this project. The uncertainty created by Foxconn and its long term prospects means we have to be even more vigilant about protecting Wisconsin workers and taxpayers.”**
